

GEORGIA YOUNG HAS A BOOSTER TOLD OF A FILTER THAT MIGHT
HELP

cause programing of KOKS. Channel 12 is weak and some music is picked up on it during the daytime hours.

The radio station shuts down at 6:00 p.m. and starts again during the morning hours. This is only temporary, they are going to 24 hour broadcasting 100,000. watts very soon. *Nov 24 hrs.*

We have been told by the KOKS radio station "We will be staying on the air, everything will stay like it is and you might as well get use to it. You will never be able to pick up channel 6 again and were not responsible for interference on radios, TV's, tape players ect."

People are being out money to see why their TV's and radios are not working right. People do not know why their having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.

Many items and neccessary equipment is being effected in our households and bussinesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. Any electrical or battery operated playing instruments with speakers receive the radio station signals, burgular alarm system, and baby monitors also receive the radio station signals.

If your receiving the radio station signals on your TV, it will be blocked out, snowy with static, or a blank picture. On your stereo systems and radios you will frequently receive only KOKS radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children enjoy regular programing or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting their radio signals not to interfere with our neccessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to think everything is okey, but we need to let the station know these problems exist.

These letters will be sent to neccessary offices so we can get help for the people receiving this radio interference. The only way we can stop this is by joining together and letting them know what is happening to the public at large. It is not right for anyone to monopolize or dictate the airways.

Please support your rights by mailing this letter to: Dorris Smith

CALLLED ON 12-30-88 AT 12:15 P.M. NO ANSWER
CALLLED ON 1-2-89 AT 9:40 A.M. HAVE SATELLITE SAID HAVE LINES
LIVE IN POPLAR BLUFF ABOUT 4 MILES FROM TOWER.TOLD OF A FILTER

The radio station shuts down at 6:00 p.m. and starts again during the morning hours. This is only temporary, they are going to 24 hour broadcasting 100,000. watts very soon. *Now 24 hr*

We have been told by the KOKS radio station "We will be staying on the air, everything will stay like it is and you might as well get use to it. You will never be able to pick up channel 6 again and were not responsible for interference on radios, TV's, tape players ect."

People are being out money to see why their TV's and radios are not working right. People do not know why their having these electrical difficulties the past month or so, we hope this letter will let you know what is going on. As you read this letter please support this effort to solve this problem.

Many items and neccessary equipment is being effected in our households and bussinesses. TV's, radios, telephones, computers, and stereo systems. Tape players play the radio signals with the tape. Any electrical or battery operated playing instruments with speakers receive the radio station signals, burgular alarm system, and baby monitors also receive the radio station signals.

If your receiving the radio station signals on your TV, it will be blocked out, snowy with static, or a blank picture. On your stereo systems and radios you will frequently receive only KOKS radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children ot enjoy regular programing or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting their radio signals not to interfere with our neccessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to think everything is okey, but we need to let the station know these problems exist.

These letters will be sent to neccessary offices so we can get help for the people receiving this radio interference. The only way we can stop this is by joining together and letting them know what is happening to the public at large. It is not right for anyone to monopolize or dictate the airways.

WE NEED YOUR HELP

ccupant,

Are you having electrial difficulties due to the radio signals from KOKS FM radio station?

Most people in this area cannot receive channels 6, 15, or 8 during the day due to the radio programing of KOKS. Channel 12 is weak and some music is picked up on it during the aytime hours.

The radio station shuts down at 6:00 p.m. and starts again during the morning hours. This s only temporary, they are going to 24 hour broadcasting 100,000. watts very soon. *New 24 hrs.*

We have been told by the KOKS radio station "We will be staying on the air, everything ill stay like it is and you might as well get use to it. You will never be able to pick up hannel 6 again and were not responsible for interference on radios, TV's, tape players ect."

People are being out money to see why their TV's and radios are not working right. People o not know why their having these electrical difficulties the past month or so, we hope this etter will let you know what is going on. As you read this letter please support this effort o solve this problem.

Many items and neccessary equipment is being effected in our households and bussinesses. V's, radios, telephones, computers, and stereo systems. Tape players play the radio signals ith the tape. Any electrical or battery operated playing instruments with speakers receive he radio station signals, burgular alarm system, and baby monitors also receive the radio tation signals.

If your receiving the radio station signals on your TV, it will be blocked out, snowy with tatic, or a blank picture. On your stereo systems and radios you will frequently receive only OKS radio signals or it will blend in with the station your wanting to listen to.

Many people are confined to their homes due to illness or age, also many young children : enjoy regular programing or items for enjoyment and entertainment.

We are not trying to put the KOKS FM radio station out of business, we are just wanting heir radio signals not to interfere with our neccessary household and business items.

We have tried for over a month to get these problems solved. The radio station seems to hink everything is okey, but we need to let the station know these problems exist.

These letters will be sent to neccessary offices so we can get help for the people eceiving this radio interference. The only way we can stop this is by joining together and etting them know what is happening to the public at large. It is not right for anyone to onopolize or dictate the airways.

Please support your rights by mailing this letter to: Dorris Smith
Rt. 6 Box 260
Poplar Bluff, Mo. 63901
further information call 686-3300

Please circle any items below that are effected. If an item is not listed please write n the items.
